History of Ecological Design | Lydia Kallipoliti

anthropocene fictions the novel in a time of Global warming is a long-term rise in the average temperature of the Earth's climate system, an aspect of climate change shown by temperature measurements and by multiple effects of the warming. The term commonly refers to the mainly human-caused observed warming since pre-industrial times and its projected continuation, though there were also much earlier periods of global warming.

Global warming - Wikipedia

anthropocene fictions the novel in a time of An overview of African-American literature since 1900. Students will read and examine writings by major contributors to each period in the genres of fiction (short story and novel) essay, poetry, and narratives of enslavement.
