firesetting and mental health Arson is the crime of willfully and maliciously setting fire to or charring property. Though the act typically involves buildings, the term arson can also refer to the intentional burning of other things, such as motor vehicles, watercraft, or forests. The crime is typically classified as a felony, with instances involving a greater degree of risk to human life or property carrying a stricter ...

Neurodevelopmental and psychosocial risk factors in serial

firesetting and mental health Nocturnal enuresis, also called bedwetting, is involuntary urination while asleep after the age at which bladder control usually begins. Bedwetting in children and adults can result in emotional stress. Complications can include urinary tract infections.. Most bedwetting is a developmental delayâ€”not an emotional problem or physical illness. Only a small percentage (5 to 10%) of bedwetting ...
