good industrial relations theory and practice Industrial ecology (IE) is the study of material and energy flows through industrial systems. The global industrial economy can be modelled as a network of industrial processes that extract resources from the Earth and transform those resources into commodities which can be bought and sold to meet the needs of humanity. Industrial ecology seeks to quantify the material flows and document the ...

good industrial relations theory and practice The balance of power theory in international relations suggests that national security is enhanced when military capability is distributed so that no one state is strong enough to dominate all others. If one state becomes much stronger than others, the theory predicts that it will take advantage of its strength and attack weaker neighbors, thereby providing an incentive for those threatened to ...
