java web services architecture Java Platform, Enterprise Edition (Java EE), formerly Java 2 Platform, Enterprise Edition (J2EE), currently Jakarta EE, is a set of specifications, extending Java SE 8 (i.e. not based on latest Java 11; while can also work with later it or later than Java 8) with specifications for enterprise features such as distributed computing and web services. Java EE applications are run on reference ...

### **Java Platform, Enterprise Edition - Wikipedia**

java web services architecture Java is a general-purpose computer-programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers "write once, run anywhere" (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.
