

leadership emergence theory a self study manual for analyzing the development of a christian leader

### **leadership emergence theory a pdf**

leadership emergence theory a self study manual for analyzing the development of a christian leader In response to the early criticisms of the trait approach, theorists began to research leadership as a set of behaviors, evaluating the behavior of successful leaders, determining a behavior taxonomy, and identifying broad leadership styles. David McClelland, for example, posited that leadership takes a strong personality with a well-developed positive ego.
